MEMORANDUM FOR: [REDACTED]

1. In response to your verbal request for definite information on the number of C, E and F racks needed by NSA, I was unable to establish a satisfactory liaison contact to answer this question. I contacted [REDACTED] which resulted in a conference with [REDACTED] who, after a brief but profitable discussion, indicated that he would have to get assistance before the question could be answered. He has later stated that it would take some weeks to answer the question and that some 167 people will need to be involved in the decision. Clearances for these people and the time involved in discussions on the subject seemed to be a prohibiting factor in proceeding.

2. On a somewhat personal basis, he indicated that the question of financing the C, E and F racks had been raised and this alone would prohibit the development of an answer until the financing question was settled. He has also indicated that this group of people which he would like cleared and briefed would need to start thinking about the Project as a whole to determine how it could best serve his organization rather than start with the answer to my question.

3. It is recommended that a top level contact be made to an NSA administrator in an effort to seek out a replacement for [REDACTED] who was a satisfactory liaison on similar questions during the earlier stages of this Project.
